Opis produktu

Fully adjustable professional camber gauge for easy and fast camber adjustment by 1° increments in a total range of 5°~10°.

CNC-machined from premium-quality aluminum the gauge is ultra-precise and super accurate with tight tolerances, precise laser-etched markings and solid construction. Extremely durable and wear resistant with compact size and lightweight design. Black coated.

HUDY Adjustable Camber Gauge is available in two size alternatives 80mm and 110mm to choose from for all various RC car scales.
