### Opis produktu

Set-up System for all 1/10 off-road cars:

**Fits all 1/10 off-road electric cars (with drive axle diameter of 4.8mm). For XRAY XB4 must be used also #108928 alu shim 5x11.8x8mm. Please note that the set-up system stands do not fit on 5mm wheels. The hole in the stands up to size 5mm which will allow the set-up system to be used on 5mm wheels.**

Set-up system is used for adjustment of:

- camber & camber rise
- caster
- front and rear toe
- steering throw symmetry

#### Main Features:

- premium-quality exclusive set-up system for 1/10 off-road buggies with adapters
- super-precise measurement and setting of front/rear camber, toe, steering throw
- includes handy set-up nuts for quick assembly/disassembly
- backlash-free, wobble-free mounting
- fully ball-bearing equipped set-up stands (12 high-precision ball-bearings)
- ultra-smooth, ultra-precise movement and operation
- CNC-machined, hardcoated high-grade aluminum set-up stands
- CNC-machined, tough acrylic plastic toe/steering plate
- precision engraving for instant, reliable readings
- delivered in handy foam packing for comfortable and safe storage and transport

Premium-quality exclusive set-up system for 1/10 off-road buggies with 4.7mm wheel axle with both pin and hex drive wheel adapters. May be used for super-precise measurement and setting of front/rear camber, toe, steering throw, and caster. Backlash-free, wobble-free mounting of the fully ball-bearing equipped set-up stands (12 high-precision ball-bearings) ultimately gives ultra-smooth, ultra-precise movement and operation.

Set-up stands are CNC-machined, hardcoated high-grade aluminum; toe/steering plate is CNC-machined, tough acrylic plastic. All components feature precision engraving for instant, reliable readings. Includes handy set-up nuts for quick assembly/disassembly. Delivered in handy foam packing for comfortable and safe storage and transport.

---

Wheel Nuts are not included and are available as [option](#)
