### Opis produktu

Introducing Contact Tyres first Touring Car rubber tyre. The new Contact A30 is a preglued tyre build designed for indoor carpet racing. The A30 tyre has been developed and tested by Schumacher Racing's experienced staff and team drivers to provide excellent traction and wear rates for the vigour's of carpet racing.

The A30 is built on a Schumacher Revlite 24mm wheel and lightweight black foam insert usually found in other popular carpet spec tyres.

Glued using Schumacher's in house automated gluing process which accurately controls the glue flow rate and quantity to ensure perfectly glued tyres every time.

While every effort is made to make the perfect gluing, drivers should always check the tyre is properly glued. Re-check after every run.
