Opis produktu

Xtreme Aerodynamics is this Twister Speciale 1/10th Touring Car Body.

Developed with leading driver Bruno Coelho.

The new Twister SPECIALE design has been developed using the most advanced CFD (Computational Fluid Dynamics) software to analyse flows and vortex generations. Several iterations and massive track test time has led to an optimal balance, extremely high downforce level and incredible aerodynamic efficiency.

The Speciale has slightly less steering but a little more traction than the Twister.

BRCA Legal

Supplied clear with overspray film, window masks, decals and wing mounting hardware.

0.7mm version for ETS 85g body rules.
