Opis produktu

All-new narrower chassis specifically designed for all kinds of track conditions. The chassis is 89mm wide (5mm narrower than the T4) for improved traction and steering characteristics. The all-new chassis was designed to accommodate the new suspension mounts - one of the most significant improvement features of the T4'14.

The 2.2mm thick chassis is CNC-machined from premium-grade, custom-manufactured carbon graphite which is based on XRAY's own recipe and specifications. Includes pre-drilled holes for optional parts such as chassis weights, graphite motor guard, graphite adjustable battery holder, and battery strap.
