XRAY 302083 T4'19 ULP Shock Tower Front 3.0MM Graphite

Cena brutto	108,61 zł
Cena netto	88,31 zł
Dostępność	Dostępny
Numer katalogowy	302083
Kod producenta	302083
Kod EAN	8581703020837
Producent	XRAY Racing

Opis produktu

The ULP (Ultra-Low Profile) front shock tower accommodates the upper clamps with centering pins. Centering pins allow perfectly fitment of the shock towers on the upper clamps in the exact same position every time, thus helping to eliminate tweak .

CNC-machined from 3.0mm thick premium-grade graphite material to guarantee maximum strength and long life. The shock towers are super small, lightweight, and very compact.

The ULP (Ultra-Low Profile) shock tower is 4mm lower than the SLP (Super-Low Profile) shock tower to maximize the benefits of the ULP shocks, and to create an ultra-low profile that helps move the CG as low as possible.

Recommended for low-to-very high traction track conditions.
