Kod producenta	302362
Kod EAN	8581703023623
Producent	XRAY Racing

Opis produktu

Molded composite C-hub for left steering block of T2, T3. Caster pre-set at 2°. Medium rigidity for rubber-tire racing. Use with matching right-side C-hub #302361. Can be also used for foam tires.

New C-hub has large openings for quicker & easier assembly/disassembly of CVDs. The entire CVD assembly can be easily inserted/removed through the C-hub without the need for disassembly, and the large openings prevent binding of the CVD in serious crashes.

The C-hubs are available in all standard caster angles (0°, 2°, 4° and 6°) and are also available in 4 different hardnesses (Medium, Hard, Graphite and Alu) that are optimized for particular racing conditions. The EU Edition includes medium rigidity (M) C-hubs specially optimized for rubber-tire racing, while the US Edition includes hard rigidity (H) C-hubs specially optimized for foam-tire racing.
