Opis produktu

Molded composite C-hub for right steering block. Caster pre-set at 0°. HARD rigidity for rubber-tire racing and also foam tire racing. Use with matching left-side C-hub #302370.

C-hub has large openings for quick & easy CVD assembly/disassembly. The entire CVD assembly can be easily inserted/removed through the C-hub without disassembly. The large openings prevent collision of CVD with C-hub in serious crashes, and are designed for use with optional ECS drive shafts.

The C-hubs are available in all standard caster angles (0°, 2°, 4° and 6°) and are also available in 4 different hardnesses (Medium, Hard, Graphite, and Alu) for different racing conditions.
