Opis produktu

CNC-machined from high-quality 2mm Swiss 7075 T6 aluminum, the chassis is lightweight without affecting strength or rigidity, and is additionally black coated at XRAY's own in-house fully robotic coating line.

Weight distribution, chassis width & length, and proper flex have all been incorporated into the design of the chassis.

Due the nature of the aluminum material and the machining process, it is normal that the chassis may be slightly bent in the longitudinal direction.

Fits:

XRAY XB2'16
XRAY XB2'16
XRAY XB2'17
