Opis produktu

CNC-machined from high-quality 2mm Swiss 7075 T6 aluminum, redesigned for improved handling. Milled grooves increase flex to generate more traction, and make the handling more forgiving. The chassis is lightweight without affecting strength or rigidity, and is additionally black coated at XRAY™ own in-house fully robotic coating line.

Weight distribution, chassis width & length, and proper flex have all been incorporated into the redesigned chassis.

Due the nature of the aluminum material and the machining process, it is normal that the chassis may be slightly bent in the longitudinal direction.

Fits:
XRAY XB2'17 Dirt
XRAY XB2'18 Dirt
XRAY XB2'19 Dirt
