Kod EAN	858170321262132
Producent	XRAY Racing

Opis produktu

The front lower chassis brace is another component of the Multi-Flex™ system that influences flex and the handling of the car. The brace is molded from MEDIUM-hardness composite and is suitable for most track conditions, especially for very-low-, low- and medium-traction tracks. Generates more traction.

The brace is mounted directly to the chassis to hold the entire front assembly and front suspension, including the front protection bumper.
