Kod producenta	323323
Kod EAN	8581703233237
Producent	XRAY Racing

Opis produktu

Optional brass rear lower suspension holder for the REAR of the rear suspension provide additional weight down low to improve traction and stability while lowering the car's CG. Narrower design increases car's rear roll and generates more traction.

The suspension holders feature Integrated Suspension Settings™ (I.S.S.™) which allows for quick & easy suspension geometry setting. This XRAY concept was first introduced in the original XB8 and has been carried over to the 1/10 scale XB2 and XT2.

XB2 suspension geometry can be completely adjusted using eccentric suspension bushings inserted into suspension blocks, as well as using additional suspension shims.
