Kod EAN	8581703233251
Producent	XRAY Racing

Opis produktu

Redesigned rear lower suspension holder for the REAR of the rear suspension allows use of XB4 arms at rear of XB2 cars. CNC-machined from premium Swiss 7075 T6 aluminum. Ultra-strong construction provides extra-long lifespan and durability in extreme racing conditions. Narrower design increases rear roll while generating more traction.

Aluminum lower suspension holders with Integrated Suspension Settings™ (I.S.S.™) allow for quick & easy suspension geometry setting changes. The suspension geometry is completely adjustable using eccentric suspension bushings inserted into aluminum suspension blocks, along with additional suspension shims.
