Kod producenta	323355
Kod EAN	8581703233558
Producent	XRAY Racing

Opis produktu

Super-compact rear upright, CNC-machined from high-grade Swiss 7075 T6 aluminum, featuring multiple set-up options for upper & lower roll centers.

Upper roll center is adjusted with the camber linkage via shims in all directions – up/down & in/out. Lower roll center is adjustable via eccentric inserts in 9 different positions – up/down & in/out.

The race-proven, 2-piece design allows fine-adjustment and increases durability as well performance. Using the aluminum uprights make the car more stable and increases overall side grip and forward traction. Traction under braking is also improved.

The upright fits on both left & right sides. Must be used with the longer drive shafts.
