Opis produktu

All-New 2024:

- Complete aluminum front & rear suspension sets included in the kit in addition to the standard composite suspension parts
- Front aluminum c-hubs and steering blocks increase overall steering and improve consistency
- Rear alu uprights increase stability on- and off-power
- Larger super-lightweight ventilated brake disks significantly improve brake cooling and ensure vibration-free operation while reducing rotating mass without sacrificing strength or durability
- Graphite horizontal body backstop set reinforces the rear section of the body and provides additional protection in a crash

Alu Suspensions.

The GTX now includes the complete alu suspension set worth of 330€ / 363USD* with no additional charge.

The complete aluminum suspension set includes:

- **Front C-hubs**
- **Front steering blocks**
- **Rear uprights**
- **Graphite extensions**
- **Hardware & accessories**

* Suggested retail price without VAT. Additional VAT and taxes may apply. Prices may vary depending on the exchange rates.
