Kod EAN	858170362210934
Producent	XRAY Racing

Opis produktu

GRAPHITE molded composite C-hub for RIGHT steering block. The specially-formulated graphite composite material is a perfect balance between reliability and performance. Caster pre-set at 9°. For use with matching left-side C-hub #362210-G. Roll center position can be quickly & easily adjusted by inserting different thickness shims atop the caster block, between the block and vertical ball stud. This GRAPHITE C-hub is suitable for most track conditions, especially for high- and very-high-traction tracks. Large openings allow for quick & easy assembly/disassembly of the CVDs; the entire CVD assembly can be easily inserted/removed through the C-hub without the need for disassembly. The large openings also prevent jamming of the CVD within the C-hub during serious crashes.

Fits:

XRAY XB2'15
XRAY XB4'13
XRAY XB4'14
XRAY XB4'15
XRAY XB4'16
