XRAY 362250-H Composite Steering Block - Hard

Cena brutto	31,52 zł
Cena netto	25,63 zł
Dostępność	Dostępny
Numer katalogowy	362250-H
Kod producenta	362250-H
Kod EAN	858170362250533
Producent	XRAY Racing

Opis produktu

The tiny yet tough steering blocks are molded from a special composite mixture for maximum strength. Perfect for high-traction conditions. Generates less on-power steering, easier to drive.

Composite steering block inserts allow for very quick & easy lower roll center adjustment. Roll center is easily achieved with additional shims and extra inserts.

For maximum drivetrain reliability, larger 5x12 ball-bearings with increased dynamic load are used in the outer position. On the inner position, smaller 5x10 ball-bearings are used for minimized unsprung weight. Available in different hardness compounds.

Fits:

XRAY XB2'15
XRAY XB4'13
XRAY XB4'14
XRAY XB4'15
XRAY XB4'16
XRAY XB4'17
XRAY XB4'18
