| Producent | XRAY Racing |

Opis produktu

To reduce rotating weight, the super-lightweight diff outdrives are machined from HUY Spring Steel™ material which allows additional material to be removed on the outer part of the outdrives, further reducing the weight without effecting durability. The inner part of the outdrives is additionally hand-ground for perfect fitment into the diff case.

Designed for use with 2.5mm pin. The stronger diff outdrives are the result of a new hardening process that increases lifespan and reliability. Set of 2.
