Kod producenta	371014
Kod EAN	8581703710141
Producent	XRAY Racing

Opis produktu

Aluminum X10'18 chassis designed to increase traction, stability, and steering in specific conditions. The alu chassis provides better control and makes the car easier to drive. This innovative alu chassis has been extensively tested and is recommended for low-, medium-, and high-traction tracks. CNC-machined from 2mm thick premium Swiss 7075 T6, additionally black coated.

For use with alu pod plate #371156.

Due the nature of the aluminum material and the machining process, it is normal that the chassis may be slightly bent in the longitudinal direction
